the "Critical Pre-requisites for Old Testament Exegesis." Chapters III., IV., and V. deal with Old Testament Introduction, presenting briefly the latest views propounded concerning each book. Chapter VI. takes up "The Old Testament Canon," and Chapter VII., "The Old Testament Text." Of necessity the matter is only a sketch of the ground which it covers, the entire space occupied by the department of the Old Testament being 80 pp. It ought to be said (1) that this is the latest and freshest presentation of these subjects; (2) that no one is more able than Dr. Curtiss to do such a work well; (3) that the work, as a whole, fills a place in theological literature never before filled; and (4) that such an undertaking as this ought to receive the support and patronage of every man or woman interested in Biblical or Theological Study.
